SUMMARY

STAFF RECOMMENDED MOTION:

Approval to Send a Recommendation to the Commission for the Installation of New L.E.D. Lights at the Rolling Acres Sports Complex Soccer Fields.

The Parks and Recreation Department has budgeted \$650k for new light poles and the Commission has approved the project in this year's budget. The funding source is Parks and Recreation Impact Fees. In 2003, the Rolling Acres Sports Complex was constructed to include three soccer fields, a concession stand and the moving of the Driving Range to the north side of the property. At that time, the 14 houses to the back of the complex and other neighbors joined in against the park and the lights. Only one soccer field was lighted with the old-style lights and two fields were left in the dark for the kids to play on.

Twenty-one years later, most of the neighbors have moved on or are no longer with us and we have planted three rows of trees to assist in eliminating noise pollution. We also have a new generation of lighting that will eliminate the light spillage at the back of the property. Currently, it is my understanding that we have 100 lumens of light spillage at the closest property which is about 900 feet away from the property line of the corner house. As you will see in the attached documents, we will have zero lumens of spillage about 100 feet from the bottom field. This will eliminate any spillage to the back houses and the campers at Recreation Plantation. Also, the neighbors to the park now know that they moved in next to a park where back in the day, there was a park with lights but no soccer fields or concession stand.

We currently have the Lady Lake Soccer Association with 350 players and with the apartments and new houses coming, we will see that number greatly expand. There is no way that we can safely run a league of that size with one lighted field. I have seen it done for 20 years and it has been a good look for our Town.

FISCAL IMPACT

Predicted to come in at \$650k

SUMMARY

STAFF RECOMMENDED MOTION:

Review Only

The Town and the Parks and Recreation Department are looking to host a centennial celebration in November of 2025. We are looking for input on any activities or ideas that you may have for the event or activities. We predict that it will be heavily attended and expect a quality program. We are looking to incorporate a fireworks and drone show for the event.
